Tips on engaging with the Bible

Image not found

bible open I am dyslexic. My dyslexia makes it difficult for me to engage with the Bible by reading it. So I need to use formats other than print, for example pictures or audio. There are lots of resources which let me engage with the Bible in ways other than reading. Two I find particularly helpful are an audio dramatization produced by the Bible Society called 'You've got the Time [1]'; and a website that offers free sets of Bible story images called Free Bible images [2].

There are many other things that help me engage with the Bible. For example, gaining the gist of a passage before reading it in print, acting out a story, and discussing the Bible with others.

You'll find more information in a guide I've written called 'Tips on taking in and remembering Bible content?'. You can download it here, in [3]Word [4]or pdf [5]:

Aurora Betony is a dyslexic adult who creates self-help resources for dyslexic adults.
